

Angled _Pendant

The Angled pendant combines a ceramic diffuser, handmade in Italy, with the Baby model, creating a lamp with a modern character. The diffuser features a prismatic relief surface. The metal frame is available in three colors coordinated with the diffuser finishes: white, gray, and black. The LED light source includes TRIAC dimming and is offered with a color temperature of 2700 K or 3000 K. Installation requires direct connection to the mains and is intended exclusively for indoor applications. The pendant version is suitable for dining tables and living areas in residential settings, as well as for lounge areas, receptions, restaurants, and hotel rooms in contract projects. Its compact size and essential shape allow for single installations or multiple compositions, making Angled ideal for interiors requiring a contemporary aesthetic and a discreet luminous presence.

LED dimmable IP40
