Bernhard Osann

Augsburg

Bernhard Osann, born in Augsburg, runs his design studio in Hamburg since 2014. He studied at the University of Fine Arts in Hamburg. He experiments with physical laws and geometrical shapes to find new unconventional solutions to simplify objects. The results are minimalistic dynamic constructions that move, interact with space and invite you to connect.

Manual interaction and flexibility are the cornerstones of Flamingo: the variable weight distribution and central centre of gravity allow the structure to balance itself independently, ensuring stability and freedom of movement without friction. The adjustable light source offers functional or decorative illumination.

- IT

Interazione manuale e flessibilità sono i cardini di Flamingo: la distribuzione variabile del peso e il baricentro centrale consentono alla struttura di bilanciarsi autonomamente, garantendo stabilità e libertà di movimento senza attrito. La sorgente luminosa regolabile offre un'illuminazione funzionale o decorativa.
- FR

L'interaction manuelle et la flexibilité sont les pierres angulaires de Flamingo : la répartition variable du poids et le centre de gravité central permettent à la structure de s'équilibrer de manière autonome, ce qui garantit la stabilité et la liberté de mouvement sans frottement. La source lumineuse réglable offre un éclairage fonctionnel ou décoratif.
- DE

Manuelle Interaktion und Flexibilität sind die Eckpfeiler von Flamingo: Die variable Gewichtsverteilung und der zentrale Schwerpunkt ermöglichen es der Struktur, sich selbständig auszubalancieren, was Stabilität und Bewegungsfreiheit ohne Reibung gewährleistet. Die verstellbare Lichtquelle bietet sowohl funktionale als auch dekorative Beleuchtung.
